

YOUR BUNKERING PARTNER

ABOUT US

Multinational Fueling is an experienced global fuel business located in Spain that provides a comprehensive fuel and oil supply service to yachts, cruise ships, merchant ships, and the navy army.

With large experience in both local and international markets, our highly skilled brokers team has built for ourselves a wide network of key contacts. This gives us exclusive insights and knowledge on local rules, regulations, and compliance standards, which in turn enables us to deliver high-quality fuels at the right price, smoothly and effectively, in many Spanish ports, including the Balearic Islands, Canary Islands, Gibraltar and a wide list of locations in Mediterranean Waters.

MISSION & VALUES

▶ Best rates

Our service is always available at the best market conditions and with top-notch delivery flexibility.

▶ Expertise, quality, and efficiency

We bring stability and reliability to the Spanish fuel market by providing our customers with extensive expertise in the energy space along with a robust business network to ensure quality products, efficient logistics, and competitive pricing.

▶ Excellent products

From straight run to blended products, we only provide you with the best.

OUR PRODUCTS

With a strong business network to ensure quality products, we serve customers with efficient, transparent, and environmentally responsible marine fuel solutions

High-quality diesel, in addition to meeting delivery, safety, quality, and environmental regulations, is the best solution for extending engine life.

We provide high-quality fuel to aviation, industrial, and retail customers.

Marine gasoil is the most common fuel supplied to yachts. The product traded by our company comprises marine distillate fuel with low sulphur content and a flash point over 60°C. We can offer supply either ex-pipe, via truck, or at a fuel station.

We are able to supply any type and grade of marine lubricants in most of the Mediterranean ports due to our collaboration with all the major lubricant producers and state-owned oil companies.

WHERE WE SUPPLY

Multinational Fueling has developed an advanced marine fuel supply network and infrastructure in all major shipping regions and bunkering ports in Spain to support its customers with any fuel supply needs.

GIBRALTAR ▶ CADIZ ▶ MALAGA ▶ VALENCIA ▶ BARCELONA ▶ TARRAGONA ▶ LA CORUÑA ▶ VIGO
BALEARIC ISLANDS ▶ CANARY ISLANDS ▶ ALGERIA ▶ ALBANIA ▶ MONTENEGRO ▶ ITALY ▶ FRANCE
