- The price of the yacht charter does not include the APA (Advance Provisioning Allowance), which typically ranges from 30% to 35% of the yacht rates, depending on the yacht.

The APA system is standard practice for covering expenses during a luxury yacht charter, allowing the captain (and chef) to manage provisions on behalf of the charterer by accessing a designated fund.

- Docking outside the base port is not included in the price. If the client wishes to moor the yacht in another port/marina, this cost will be charged to the client.
- This catalog represents a small selection from our extensive fleet of yachts.
- All boats are subject to availability, price depends on the season, hours of rental and extra requirements.
- Option for onboard catering and restaurant reservations available.
